

# GRAND MENU

# Welcome to TONO TOKYO

## Japanese "Kissaten" café

At TONO TOKYO COFFEE ROASTERS, you can experience the unique Japanese "Kissaten" café culture.

Kissaten started in Japan during the Meiji era and grew into "Modern Salons" – places where people gathered and talked. We cherish this warm tradition.

## Our Coffee & Japanese Beauty

We serve aromatic coffee made with fresh beans roasted in-house every day.

We also offer our unique "Morning Early Bird."

And, we use beautiful Japanese tableware like Kutani-yaki and Arita-yaki. In Japan, we enjoy appreciating our dishes "with our eyes." We hope you'll feel this beauty too.

## About Our Morning Early Bird

In Japanese Kissaten cafés, the "Morning Set" is a much-loved, affordable way to start the day.

We named our special service the "Morning Early Bird" to celebrate the peaceful start it brings, in the spirit of this tradition.

When you order a drink, you receive a light meal (like toast and a boiled egg) for complimentary.

You might even find special local options, such as "Tsubuan Toast" (toast with tsubuan, a sweet red bean paste). It's more than just breakfast; it's a special, peaceful moment where you can relax and enjoy simple, tasty food with your fresh coffee or tea.

Enjoy a heartwarming Japanese moment at TONO TOKYO COFFEE ROASTERS !
